Frequently Asked Questions – Franklin REC Generator Program

What Generac generator models will Franklin REC be offering?

Franklin REC has access to order any generator listed on the Generac website at a discounted price and lead times may vary dependent on the demand of a specific model.

Where can I see Franklin REC's discounted Generac generator pricing?

Franklin REC does not offer this information to the public. For Franklin REC members that are interested, we can obtain current pricing from the supplier per your request.

Will Franklin REC install the generator?

No. Franklin REC is not approved or licensed to perform electrical work on the member's side of the meter.

Can I do my own electrical work for the generator hookup?

Franklin REC recommends hiring a qualified electrician of your choice, but it is not required for the purchase of the generator.

Will Franklin REC deliver the generator?

No. The generators are delivered directly to the cooperative from the supplier. It is the responsibility of the member to transport the generator from Franklin REC to desired location. There will be a 10% restocking fee charged to members who do not pick up the generator within 10 working days after being notified by Franklin REC of the generator's arrival to the headquarters.

Why does Franklin REC care where my generator is located?

When referencing the purchase request form, Franklin REC requests the location of where the generator will be installed. This information is for the safety of our line workers. During an outage, generators will power on creating an electric back flow onto the power grid, thus creating an additional danger to our line workers. This information will notify our line workers where generators are located within our system and help to identify potential hazards during an outage.

How do I make a warranty claim?

All warranty claims will need to be processed through Generac **directly**. If you need to file a claim, please call Generac at 1-888-436-3722.

IMPORTANT: All work done on warranty claims must be completed by a Generac certified technician. To find a technician in your area, please visit the Generac website and click on 'Find a Dealer.'

If there are any additional questions, please reach out to Franklin REC using any of the following methods:

Phone: 641-456-2557

Email: contact-frec@franklinrec.coop

Text Message: 641-456-6466

GENERAC®

Generator Purchase Request Form

The undersigned member requests Franklin Rural Electric Cooperative (Franklin REC) to acquire a Generac Generator as described in this Purchase Request Form on behalf of Member. The Member acknowledges that Franklin REC is not the manufacturer of the generator and does not warrant the same. Member further acknowledges that the Member is responsible for evaluating Member's generator needs and determining the appropriate size and model of generator to request. If ordered Generator is not picked up from Franklin REC headquarters within 10 working days of receipt, the member may be charged a 10% restocking fee based on the purchase price of the generator. Pricing quotes are not guaranteed and subject to change without notice. Pricing will be final when Franklin REC receives a completed and signed purchase request form.

Generac Generator Model Number Purchasing: _____
